Côte d'Ivoire, Ghana & prev. Burkina Faso

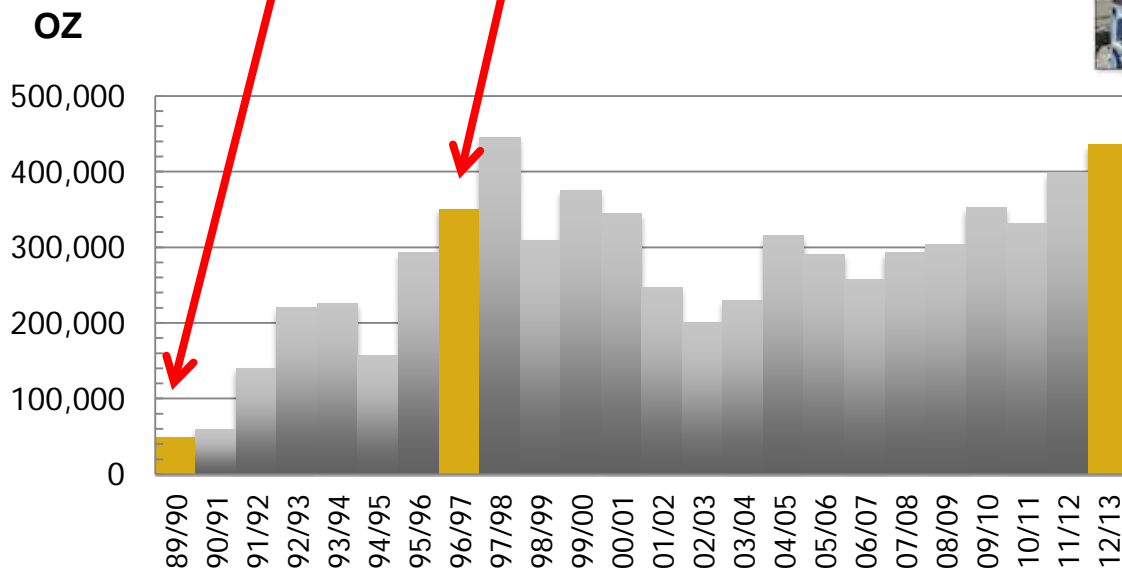

RESOLUTE: 20 Years in Africa

Exploring, Developing, Operating & Closing Mines

A consistent gold producer since 1989

Producing gold in Africa since 1996/97

AAMIG
Australia-Africa Mining Industry Group

What We Strive to Accomplish

- Our Business Goals
 - Deliver returns for all stakeholders
 - Values driven workplace, environmentally responsible and community sensitive
 - To be a neighbour of choice
 - Help build community capacity and capability
 - To close on a positive legacy
- Facing Realities
 - Help is needed in places we explore and operate
 - Need to play our role, recognising mine life is finite
 - We are not an arm of Government or a charity/aid organisation
 - Balance contribution to Nation versus local communities

What Have We Done

- Listening to and working with communities
 - Participatory Rural Appraisal
 - Focus has been on Health > Education > Water > Agriculture
- Making opportunities
 - Infrastructure development that might otherwise never happen
- Assist others to deliver support
 - On ground capability and efficiency
- Recognising and dealing with
 - Influx of workers to traditional villages
 - Competing employment opportunities in local communities

Tanzania – Community Investment Scope

Agriculture	Water	Environment	Training & Education	Health
Improved livestock & dip	Open Pit (closure)	Fuel efficient stoves	Agriculture & environment	Surgery theatre & sponsorships
Cattle, pigs, poultry	Uchama water Treatment	Tree Seedlings	Health practitioners & awareness	Donations - Paediatric cancer
Seed & Seedlings	Bores	Mine-site & Community Nurseries	Schools & ablutions housing	Malaria control
Beehives	Pumps		Desks, materials	Patient transport
Cattle troughs	Maintenance		Fees & sponsorship	Clinics & Dispensaries
Runoff dams			Small business	Generators

Ghana Initial Success - Agricultural Engagement

- Early stakeholder participation to adopt and adapt
 - Department of Cooperatives – dedicated officer
 - Ministry of Food and Agriculture – extension officer
 - District Assembly – funding
 - Farmers Resource Centre
 - 25 Cooperatives formed
 - Citronella, fish, oil palm, vegetables, ccassava, snails, pigs, bees

Farmer

Ghana Obotan - Fish Farming

- Open pits and community ponds dug
- Regional Fisheries Directorate involved
- Stakeholder field trips to fishing communities
- 79 ponds stocked - 39 communities

Ghana - Citronella Farming & Oil Extraction

- Local market - perfume, soap, insect repellent
- Business Development Committee and Plan
- Union of Citronella Farmers Cooperatives and Management Committee
- Rural Enterprise Project loan

Citronella

Citronella Oil Extraction
Plant

Tanzania - Uchama Water Treatment

- For town growth in response to mining
 - Build community capacity and capability
 - Close on a positive legacy

Tanzania - Bundomo Creek Diversion Permanent Water in Closure

Tanzania - Isanga Primary School Biogas (2002 -2006)

- Cooking and lighting for two school houses
 - Demonstration unit for other communities
- Minor repairs to reinstate cycle
- Group effort and commitment challenge

Mali - Bees

Beekeeping training and hives installation

Mali – Shea Butter & Traditional Soap

Mali - Income Generation - Vegetables

Donation of vegetable seeds to Lole' women group

Dieu village vegetable garden

Sustainability and Vulnerability Post Closure

- Successes and failures
 - Physical assets are robust and long standing.
 - Training, competency and governance
 - Machinery maintenance
 - Consumables
- What seems to work
 - Targeting the family unit
 - Embed and repeat the work cycle of trained effort
 - Resilience to changing circumstances such as weather, markets and project champions
 - A desire to continue
 - Low tech solutions

Summary

- Mining companies are focussed on core expertise – best practice mining development and operation
- Community development is a key plank of harmonious operation
- Agriculture is only one of the important components to partnering with communities
- Multiple opportunities, tailored for area of operation
- Persistence and effort required to be successful
- Mining companies offer a cost effective platform for others to continue and build on
